REQUEST FOR PROPOSAL

**RE: LETTER OF INVITATION TO BID – CONSULTING SERVICES FOR THE DESIGN,
PROCUREMENT SUPPORT AND OWNER'S ENGINEER SUPERVISION OF THE LIB-PSS
BUILDING WITH DATA CENTER**

Dear Sir/Madam:

The Central Bank of Liberia (CBL) intends to apply funds from its Fiscal Year 2026 budget toward the **Consulting Services for the Design, Procurement Support and Owner's Engineer Supervision of the LIB-PSS Building with Data Center**, under RFP No. **CBL/RFP/12/2026**.

As part of its strategic reforms to modernize Liberia's national payment systems infrastructure, expand financial inclusion, and strengthen resilience within the financial sector, the CBL intends to construct a purpose-built LIB-PSS Building with Data Center to house the operations of the Liberia Interbank Payment and Settlement System.

The proposed facility is expected to provide secure, resilient, and scalable ICT-enabled spaces for national payment processing; operational independence and robust business-continuity features; modern, energy-efficient, sustainable, and maintainable building solutions; and a mission-critical Data Center environment designed for Tier III or higher equivalent performance, with provision for future expansion.

Following the Request for Expression of Interest previously issued for the project, the CBL now invites qualified and experienced Consulting Firms to submit Technical and Financial Proposals for the provision of comprehensive consulting services for the project.

The assignment will include, but not be limited to, multidisciplinary architectural and engineering design, Conceptual Design, integration of ICT and mission-critical systems, preparation of technical specifications and procurement support, project management, construction supervision, quality assurance, testing, commissioning, handover, and support during the defects-liability period.

The proposed facility will be developed on a constrained site adjoining the CBL's existing Head Office in Monrovia and will be connected to the existing Head Office by a secure enclosed bridge. The design is also expected to provide architectural continuity with the existing Head Office and incorporate appropriate security, operational continuity, scalability, maintainability, and sustainability principles.

This is a single-stage procurement. The Technical Proposal, Conceptual Design Submission, and Financial Proposal shall be submitted together in accordance with the requirements of the RFP. There will be no separate prequalification stage.

Interested eligible firms may obtain further information from:

General Support Services Department (GSSD)

Central Bank of Liberia

7th Floor, CBL Head Office

Lynch & Ashmun Streets

1000 Monrovia 10, Liberia

Sealed Proposals must be delivered to the Procurement Section, 7th Floor, Central Bank of Liberia Head Office, no later than **3:00PM on Thursday, November 5, 2026**, in hard copies and electronically to procurement@cbl.org.lr.

Electronic submissions shall be protected by passwords. Late Proposals will be rejected and returned unopened.

The Central Bank of Liberia reserves the right to accept or reject any Proposal, cancel the procurement process, or take any other action permitted under the applicable procurement framework and the RFP.

Signed: _____
