Dr. J. Mills Jones
Executive Governor

The Central Bank of Liberia is pleased to release this second annual publication of the *Directory of Financial Inclusion Stakeholders in Liberia*. It is important that key stakeholders are identified so that all, who are

interested in promoting financial inclusion, can have access to information which will facilitate the alignment of efforts to improve access to finance for all Liberians.

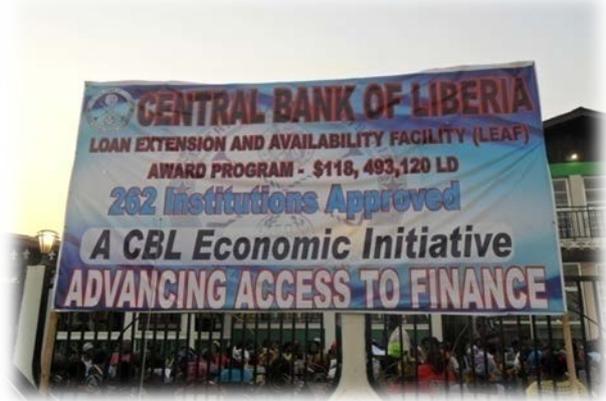

The CBL considers the policy of financial inclusion to be critical to the fight against poverty in Liberia. Enhancing access to finance is a wealth creating strategy. The publication of this directory should complement work done by the CBL to update the national strategy for financial inclusion which should be adopted later this year by all stakeholders.

We must express our appreciation to the Alliance for Financial Inclusion for providing the funding to undertake this project and thank all those who have worked to make it a success. We trust that you will find this Directory useful.

From the desk of the Officer-in-Charge, Microfinance and Financial Inclusion

The Liberian strategy for financial inclusion embodies the vision, challenges, goals and prospects for the advancement of a financial environment that provides access to finance and a wide range of financial services to all in Liberia. While the goal is a lofty one, it is one that is attainable with strategic planning and direction of resources towards impactful programs and initiatives.

Poverty reduction cannot be attained if segments of the population consistently remain outside the traditional financial environment particularly when this segment represents a vast majority of the Liberian population.

The update of the national strategy for financial inclusion is a critical exercise in setting the strategic direction to be pursued over the next years. Thus, it has been essential to garner the views and perspectives of national stakeholders, as this document is being crafted, to ensure there is a commonality of purpose and vision.

We must thank the Alliance for Financial Inclusion (AFI), which has provided the funding for this exercise. AFI has, and continues to be, a strategic partner to the Central Bank of Liberia in the bank's efforts to advance financial inclusion. The compilation of this directory will provide an opportunity for all, who are interested in financial inclusion in Liberia, to have access to information so that efforts can be aligned to create a sustainable environment.

Service Profile:	Banking, Financial Market regulation, Insurance microfinance and credit unions Regulation; maintaining the stability of the Liberian economy - spearheading Government of Liberia efforts to create access to financial services to all in Liberia. Advancing opportunities for SMEs.
Institution's role in Sector:	The Central Bank of Liberia (CBL) is responsible for financial regulation in Liberia. This includes both banks and non-bank institutions. CBL is the driver the Government of Liberia national strategy for financial inclusion and has been working with

international partners over the last couple of years in the implementation of activities geared towards achieving that objective.

Along, with UN Women, CBL expanded the Village Savings and Loan Program in the political subdivisions. In 2012, it reorganized the Liberia Microfinance Network and reconstituted the Liberia Credit Union National Association (LCUNA). It is currently in the process of forming a national apex organization for village savings and loan associations.

In keeping with its mandate, it launched a number of economic interventions aimed at stimulating growth in the general economy and improving the access to finance environment in Liberia. Among those initiatives were:

THE CBL-SME CREDIT STIMULUS INITIATIVE:

The CBL-SME Credit Stimulus Initiative is a policy intervention of the CBL to broaden access to finance for *Liberian-owned* businesses. It targeted sectors such as manufacturing, agriculture, fisheries, among others. Some of the features of this initiative include affordable rates, capped at 8%, and convenient tenors ranging from 18-36 months.

THE LOAN EXTENSION AND AVAILABILITY FACILITY (LEAF):

The LEAF program was launched in January, 2011 and provided \$200 Million Liberian Dollars for low interest loans to non-banked financial institutions mainly: *microfinance institutions, credit unions and village savings and loan associations* all across Liberia. The funds were provided to these categories of institutions at only 3% per annum over a three year period. The goal of the program was to get funds directly into the hands of ordinary Liberians who utilized the microfinance sector to stimulate economic activity and wealth creation in the bottom tier of the Liberian economy.

THE CBL MORTGAGE STIMULUS INITIATIVE:

A \$10 Million US Dollar program intended to provide, for the first time in Liberia, the opportunity for Liberians to access loans for home ownership. The program introduced a ten-year mortgage program and is being administered by the Liberian Bank for Development and Investment (LBDI).

CBL AGRICULTURAL STIMULUS INITIATIVE:

The agricultural stimulus initiative recognized that agriculture is the main driver of economic activities in rural Liberia. The \$7.5 Million USD stimulus is implemented by Afriland First Bank and has a focus on the rehabilitation of

preexisting farms with preference for investments requiring minimal gestation periods.

CBL CREDIT STIMULUS INITIATIVE FOR MEMBERS OF LIBA:

The stimulus is the second phase of infusion of funds to *Liberian-owned* businesses but has the added intent of empowering the Liberian Business Association (LIBA). As structured, the loan process will originate at the LIBA office for initial prequalification and verification of membership but the actual application and risk assessment will be done by the participating commercial banks which include: International Bank (IB), FI Bank and EcoBank.

The Central Bank of Liberia is currently updating the National Strategy for Financial Inclusion (2014-2018) under a grant from the Alliance for Financial Inclusion (AFI).
